“Trident has reported steady performance during the quarter led by healthy volumes in the terry towel business. Given our overall thrust on marketing, we believe we could further improve upon this performance in the coming quarters. I am also pleased to share that we have commenced production at the integrated bed-linen facility of 500 looms in Budni, Madhya Pradesh. With a major project milestone completed, the entire management’s focus is now towards driving sales volume through various marketing initiatives.

We are witnessing strong traction in the domestic market where we continue to lay strong emphasis on brand building and this will help support growth in medium-to-long run. In addition, we would continue to focus on improving our utilization rates of home textiles and also increase our contribution towards high margin value-added products. This along with greater contribution from the newly-commissioned bed-linen unit would help consolidate Trident’s position in the home textile industry and achieve stronger growth in the ensuing years.”
